

VEX IQ Level Up : Session 6 - Inspection

Activity: Complete a robot inspection.

Your team will need to bring their robot for inspection at the start of the competition. The robot must pass inspection in order to compete in matches.

1. **Bring your robot to the inspection area.**
2. **The inspector should check each item on the [robot inspection checklist](#) to make sure that your robot is in compliance with the rules.**
 - Refer to the [game manual](#) to help answer any questions about rules for inspection.
 - Team members should be present to answer questions during the inspection.
 - Make sure that you have 2 easily visible VEX IQ Competition license plates on two opposing sides, each with a clearly visible and legible team number.
3. **Note any Action Items from inspection that you want to fix before the event below.**

Action Items from Inspection:

-

Discussion Questions

- Were there any surprises from the inspection checklist that we didn't expect? How will we address them before competition?
- How can we find the answers to any questions we have about inspection?
- Do we feel like we can confidently pass inspection at the competition?
