

VEX IQ Level Up : Session 6 - Matches

Activity: Walk through a match and check your score.

Your team will need to arrive with your alliance partner to your matches on time, and be ready to play when you get there.

1. Use your match schedule to find the time, location, and alliance partner for your match.

- Make sure you know which team members will be the drivers for the match.

2. Come to the field ready to play.

- Make sure your Battery and Controller are charged.
- Drivers go to the driver station.
- Place your robot on the field in the starting position.

3. Practice scoring the match, and comparing that score with the referee.

- At the end of the match, your team will be asked to confirm your score.
- Make sure you know how to calculate the score correctly.
 - **What can you do if you disagree with the referee's score?**
You can *respectfully* ask questions about the score if you think it is incorrect before you leave the field. Once you leave the field, you cannot go back to question a score or ruling.

4. Note any Action Items or questions you want to figure out before the competition below.

Action Items or Questions from Practicing a Match:

-

Discussion Questions

- Do we know match scoring enough to confirm our score confidently?
- What will we do if we disagree with a score or ruling?

Activity Checklist

- ☐ Drive team arrived at the match on time.
- ☐ Robot and Controller were ready to play.
- ☐ Score confirmed successfully.
- ☐ Action items or questions noted.
