Dear Valued Customer,

I am writing to each of our customers to let you know that as of April 1, 2019, VEX Robotics will begin collecting and remitting sales tax in the states affected by the recent U.S. Supreme Court Wayfair decision.

By way of background, on June 21, 2018, the U.S. Supreme Court issued its opinion in South Dakota v. Wayfair, a landmark sales tax nexus case, raising concerns for many online sellers and multistate businesses. The Court ruled in Wayfair that a state can require an out-of-state seller to collect sales or use tax on sales to customers in that state, even though the seller lacks an in-state physical presence.

In the months following the Wayfair decision, many states have adopted similar economic nexus provisions or policies requiring remote sellers meeting certain sales thresholds to collect and remit sales tax.

If you are exempt from sales tax in your state, you will need to submit your Sales Tax Exemption Certificate to your VEX sales representative or email a copy of the certificate to taxforms@VEX.com prior to your next order.

We appreciate your business and look forward to continued success.

Sincerely,

Tony Norman
President
VEX Robotics, Inc.
