

DURING FLIGHT RESPONSIBILITIES

Adults	Flight Team: Pilots	Flight Team: Copilots	Observers
Supervise the flight area	Disengage Propeller Lock when ready for takeoff	Maintain a visual line of sight on the drone at all times	Remain aware of surroundings
Ensure flight teams are on task	Maintain control of the drone: • Stay inside the flight area • Fly the mission/task • Activate the E-Stop if needed	Help the pilot navigate	Stay out of the flight area and pilot stations
Maintain safety procedures	Land when battery levels are 10% or less	Monitor battery levels of the drone and controller Alert the pilot if battery levels drop below 10%	Minimize pilot distractions

ALL: Calling "CUT!" in the event of an emergency

Anyone (student or adult) may call out "CUT!" at any time if they see a safety concern during flight. All pilots must immediately stop flying when "CUT!" is called
